

Gray Enamel Paint Special

GENERAL COATINGS

Polyurethane Floor and Deck Enamel

An Alkyd base enamel designed for use on porches, floors, decks, railings and most interior and exterior surfaces. It is a tough, flexible, high hiding and durable coating, which provides excellent resistance to wear, water, oil and weathering. It provides good gloss and color retention with excellent application properties. The smooth, high gloss and elastic film provides a protective finish that is extremely washable and gives outstanding service under the most severe conditions.

Recommended for interior or exterior wood or cement floors, dados, linoleum, docks, decks, woodwork, furniture, boats, machinery, tools, pipes, radiators, iron fences, fire escapes, exterior trim and all general heavy duty purposes. 1 gal. size.

1521	Battleship Gray	G-1521
1531	Light Grey	G-1531

GENERAL COATINGS

Super Enamel Paint

Super Enamel is intended for interior and exterior use on virtually any surface. The modified epoxy formulation provides a tough, durable and abrasion resistant finish. Super Enamel resists the effect of water, sunlight and wear and prevents rusting. It dries to a very high gloss which is retained after repeated cleaning and exposure. Super Enamel is excellent for use where a heavy duty enamel is required. All colors are high hiding and non-chalking. Super Enamel is an environment friendly product that is lead free, mercury free and satisfies all federal air quality and pollution control standards for paint products. It is also U.S.D.A. approved for incidental food contact areas.

For interior and exterior surfaces composed of wood, metal, or masonry materials. Super Enamel may be used on floors, trim, machinery, tools, pipes, toys, boats, fences, fire escapes, garden furniture and virtually any surface requiring a durable heavy duty protective and decorative finish. This enamel contains no lead pigments and is safe to use on surfaces accessible to children. 1 gal. size
